License Manager

Option B - with accounting

Enterprise modernization assessment | 31 October 2026

Option A plus chart, journals, subledgers, controlled source posting, bank reconciliation and CA-led migration.

Verified position

Local authenticated screens and repository evidence were inspected read-only. Production remains unverified. Reconciliation figures are displayed metrics only: 1,043 BOEs, 317 invoices, 2 matches, 53 unmatched invoices and 1,699 duplicate-debit candidates.

Scope and decision

Foundation	Option A	445
Journals	Chart, period, balanced posting	120
Subledger/bank	AR/AP, payments, statements/matching	155
Cutover	Opening/migration/parallel reconcile	130

Integrity statement

No source code, business data, migration, configuration or production system was changed. Critical business outcomes require isolated test evidence and owner/domain approval before implementation.
